The Evansville campus consists of two buildings. The first building is a one story, 16,000 square foot building which houses approximately 200 students who primarily attend day classes. It contains nine classrooms and labs (computer and medical/veterinary), a library, student break area, and an administrative work area. The two computer labs consist of 36 work stations combined. The medical/veterinary labs contain equipment used in today's workplace. The second building, the kennel, contains five separate rooms that house our animals used for learning in the veterinary technology program. Cats, dogs, and rodents are housed in separate rooms. The last two rooms are used for storage, laundry, lab work, and bathing of the animals.
